

Drawings

The drawings filed on 7/28/06 are approved by the Examiner.

EXAMINER'S AMENDMENT

The application has been amended as follows: Cancel claims 1-7 and 15-22.

These claims were non-elected without traverse in the paper of 3/18/08.

Allowable Subject Matter

Claims 8-14 are allowed.

The following is a statement of reasons for the indication of allowable subject matter: the prior art does not show nor fairly suggest an electric field application unit and a heat unit for use with a device that uses a relaxor ferroelectric solid solution single crystal that makes transitions when the electric field potential reaches a threshold value and makes transitions when the device is heated to or above the Curie temperature.
